Domestic Violence is a policy issue.

Ask any candidate...

- How have you supported DV survivors?
- Where does Domestic Violence stand for you as a policy issue?
- Where does Domestic Violence stand for you as a funding priority?
- How will you make sure your decisions on Domestic Violence issues are informed?
- What policies do you support that will end the culture norms that allow domestic and sexual abuse to be excused and justified?

Instructions

- Print - we recommend heavyweight paper.
- Fold along the center line.
- Cut down the line from the top, then around the circle as shown.
- Hang this guide from your door knob, so it's handy when a candidate knocks on your door.
